

# Short HOWTO for Theses Template

Use this template with L<sup>A</sup>T<sub>E</sub>X 2e (TeXLive 2011 recommended). For inspiration, see `MastersThesis_example`. Should you have any question or comment, contact the template author mentioned in file named `FIThesis.cls`.

This template is designed for double-sided printing.

## 1 Bachelor's Thesis

Select source file `Template_BachelorsThesis.tex`. Rename it according to this pattern: `BP_Surname_Name_Year.tex`. Edit the template as you need: fill in your data, write your thesis' text etc. Use `pdflatex` command to process it.

## 2 Master's Thesis

Select source file `Template_MasterssThesis.tex`. Rename it according to this pattern: `DP_Surname_Name_Year.tex`. Edit the template as you need: fill in your data, write your thesis' text etc. Use `pdflatex` command to process it.
